

Bordeaux Internship Programme 2020

Since 2008, Hong Kong has become a wine duty-free port. As Asia's leading wine trading and distribution hub, the wine industry requires many talents in related businesses. To attract young people in Hong Kong to be part of this industry, this wine-related internship programme (the Programme) in Bordeaux, France, seeks to strengthen their knowledge by receiving first-hand training on related subjects and learning about French art and culture.

Established in 2001, Altaya Group (AGIL) started as a wholesale wine business providing services to both trade customers and private clients. The scope now ranges from wine list selection, import and export, wine investment, vineyard management, winery acquisition to retail and online shops. Wine is a lifelong passion which can transform the ordinary to the magical. The pursuit of unforgettable gastronomic experience is what drives AGIL to bring people closer to the best wines and greatest winemakers across the globe.

The purpose of the Programme is to provide 15-20 Hong Kong students an opportunity to receive wine-related education and training. The Programme encourages students from all fields to apply but students from Food & Beverage, Hospitality or Tourism Academic Programmes will be given priority.

The programme serves as a 4 weeks-long internship opportunity, covering:

- (a) One/Two-week course at Bordeaux CCI training centre
- (b) Two/Three-week internship at famous Bordeaux chateaux during harvest

Requirements:

- a) A permanent resident of the Hong Kong Special Administrative Region
- b) Fluency in speaking English is highly preferred
- c) Nomination from your current universities/education institutes
- d) Currently admitted to Hong Kong universities/education institutes undergraduate or postgraduate programmes from the following:
 - Hong Kong University of Science and Technology;
 - The Education University of Hong Kong;
 - The Open University of Hong Kong;
 - City University of Hong Kong;
 - Hong Kong Baptist University;
 - Hong Kong Polytechnic University;
